BIPASHA NEEDS YOUR HELP

Dear Reader,

35-year-old Bipasha, mother of two and a former tea-worker from Habiganj, needs your help.

22 years ago, at the age of 13, Bipasha worked at a Rubber Garden. There she was frequently sexually assaulted by her manager's son and other influential locals. One day she had had enough and complained to her manager. But soon after, to her utter dismay, her manager, his son and the powerful locals lured her to a quiet place and doused her with acid and raped her as she burnt.

The acid burnt Bipasha's esophagus so severely she had undergone 7 surgeries since. Over the years however, her esophagus became narrower causing difficulty swallowing food. She is in dire need of operations but she is unfit for surgery due to severe malnourishment and mental instability, both owing to dire poverty.

Bipasha's husband works in the tea gardens and makes a monthly income of 21 USD which is barely enough to keep their family of four healthy. Months ago, Bipasha used to work alongside her husband. But she quit due to weak health. Her body is unable to produce enough breast milk for her son of 9 months whose health is in gradual decline due to under nourishment.

Quitting her day job had financially affected her family and therefore their nutritional wellbeing. Please consider donating to help Bipasha afford her operations and to facilitate a care package at ASF including nutritional care, medicine, and psychological counseling. With your donation both Bipasha and her family's life can transform for the better.

Bipasha is one of ASF's many regular survivors receiving financial aid for medical treatment, medicine, transportation and food. Over the years since her attack, ASF covered the cost of all her operations and medicine. Last month, ASF granted her 15,000 BDT (161 USD) for nutrition.
